

Want to help Chinese orphans? Participate in the:

MIT China Care Toy Making Workshop

Dates: Saturday; October 30, November 6 & 20

Time: 11 am - 2 pm (snacks will be provided)

Location: MIT Campus

What: Make cool, hand-cranked, wire kinetic machines!

We will be providing a basic model to make, but modifications are welcome!

Cost: **Free!**

Brief Description:

Approximately 30 high students will be invited to the three day MIT China Care Toy Making Workshop to produce simple mechanical toys that will be donated to orphaned children in China. The goal of this workshop is to give participants an opportunity to develop and apply engineering skills while also helping medically needy orphans in China by raising awareness of the issue.

Participants will be divided into groups, with each group responsible for producing one toy throughout the course of the workshop. All supplies and instructions will be provided.

How to Apply:

Interested participants may apply by filling out the application and sending it to the email address below by **11:59 pm on October 22nd**. Admitted applicants will be notified within one week after the deadline via email. Selection will be based on the level of interest expressed in the application.

If you have any questions, feel free to contact us at:

chinacare-mentorship@mit.edu

We look forward to hearing from you!

This event is funded and organized by the MIT China Care Club
