

MIT CHINA CARE Club

Who We Are

MIT China Care is a recognized China Care Club under the national China Care Foundation, Inc. (www.chinacare.org) Founded in 2007, our club's goal is to help Chinese orphans and adopted Chinese children in need. We hope to create opportunities for MIT students to make a difference locally, through our playgroup program, and globally, through fundraisers for surgeries that save and improve the lives of Chinese orphans.

What We Do

Throughout the year we organize fundraisers to finance surgeries for the Chinese orphans in China. Locally, we invite adopted Chinese orphans and their families from the Boston and Cambridge area to experience different Chinese cultural activities through our playgroup program. We aim to help adopted Chinese orphans build bonds with their birth country, as well as foster a sense of community among their adoptive families and offer support.

In the past, we held "Playgroup Dates" during which we had adopted Chinese orphans and their families make simple Chinese arts and crafts and enjoy traditional Chinese foods. Additionally, we held bake sales for needy orphans in China. Last year, we raised \$500 that enabled a young orphaned girl in China to undergo cleft lip surgery.

Every one or two weeks, MIT China Care board members meet to set goals and review progress. At each meeting, officers give new ideas for future projects as well as contribute to the execution and completion of current projects. General members are always encouraged to participate - just contact us!
